Subject: Re: PMAC abstract LISN Viet Nam

Hello Jonna,

Thanks for reviewing the abstract. I will take your response as PREDICT approval to submit but will be happy to incorporate any suggestions others send if I received them before March 30th.

Cheers,

Amanda

Hello All,

Attached is an abstract I have worked on with FAO, WHO, CDC and Ministry colleagues in Viet Nam outlining the LISN project to submit to PMAC. The submission deadline is March 30th. We are all circulating the abstract to our respective colleagues/headquarters for clearance to submit and welcome any suggestions for changes. Thanks in advance for taking the time to review the draft. Pawin Padungtod from FAO VN will probably present the LISN work at the conference if the abstract is accepted.

Let me know if you have any questions and if this has the PREDICT OK to submit. As discussed with other colleagues we would acknowledge funding sources, USAID EPT, and the PREDICT consortium in the acknowledgments but let me know if you see anything that would raise concerns with regards to recognition of the different contributors to this effort.

Thank you,

Amanda
